## KDD-1012

Máquina de pasadores de arrastre superior y cuchillos frontales.

Industrialtrousers ears blindstitch machine

MODEL	Nº	 s.p.m.		 mm	ATTACHMENT	MINIMUM TUBULAR CIRCLE MINIMA CIRCUMFERÊNCIA DE BRAZO
KDD-1012	x1	2.000	LWx6T	10		220mm

### ● Características:

Máquina equipada con mecanismo de doble arrastre superior que facilita la costura de todo tipo de géneros así como la alimentación continua de tiras de tejido cortas. Para pasador acabado de 9/10mm.

### ● Utilización:

Indicada para la realización de pasadores para pantalón clásico de vestir.

### ● Features:

Additional knife shears the edge automatically which can make use of leftover material directly in order to save material. Newly-designed front feed dog and plate solves the problem of no stitch connection between two sewed materials, and become more efficient.

### ● Usage:

Specially designed for sewing belt loop trousers.
